**Re: Proposed Schedule for Completion of the RI/FS for Westlake Landfill
Operable Unit 2, Bridgeton Missouri, and Modification of the Administrative
Order on Consent (AOC), Specifically, Consolidation of Scope of Work
(SOW) Tasks**

Dear Ms. Micinski and Mr. Wall:

I write this letter on behalf of Bridgeton Landfill LLC (Bridgeton), successor in interest to Laidlaw Waste Systems (Bridgeton), Inc., to confirm the agreement reached by and between EPA, MDNR, and Bridgeton during the July 13, 2005, meeting at EPA Region VII. Bridgeton will submit to EPA the revised Remedial Investigation Report (RI), the revised Baseline Risk Assessment (BRA), and its responses to EPA's comments on or before September 13, 2005. The Feasibility Study (FS) will be due no later than February 13, 2006.

To meet these deadlines and reduce the overall duration of the project, the parties also agreed to consolidate various submittals required by the SOW of the AOC, dated Dec. 7, 1994 (revised November 7, 1996). Therefore, the preliminary deliverables set forth in the SOW will be included in the FS, to the extent that they have not already been completed or included with other previously submitted documents. The consolidation of tasks to be completed and schedule for completion of the Revised RI and FS represent a modification to the AOC, but such actions do not amend or waive any other rights or obligations of Bridgeton as set forth in the AOC.

For your convenience, I enclose two duplicate originals of this letter. Please confirm that this letter accurately reflects the submission schedule and modifications to the AOC that were agreed upon during our July 13 meeting by signing below and returning one executed original to me in the enclosed self-addressed, postage prepaid envelope. If you have any questions or require additional information, please feel free to contact me at any time.

Very truly yours,

Michael D. Hockley
